## How does the Care Entrée Program Work?

*PURCHASE HEALTHCARE AT PREFERRED RATES.*

*Wholesale Prices !*

Insurance companies receive preferred pricing, so that they may pay as little as 20 % on a hospital bill totaling thousands of dollars; while individuals with no coverage typically pay full price. Unfair? Maybe, but that's the way the American healthcare system works. Let us show you a better way...

We are not an insurance company, but like insurance companies, our group purchases healthcare at PPO-allowable or negotiated rates. Whether you have coverage with gaps (like high deductibles, limits & exclusions) or no insurance at all, our program can reduce your out-of-pocket expense. So, why wait? Sign up now & bring your costs under control
