

EMERGENCY DATA ACCESS CARD

Access to your medical information can mean the difference between recovery, prolonged complication or death. Instacare card is an innovative technology smart card with 800 # **24** hour **7** Day Access.

The right medical information, when quickly and reliably available, can mean the difference between recovery and prolonged complications; sometimes even the difference between life and death. The Instacare Emergency Card is an innovative healthcare application designed to offer Care Entrée members peace of mind in the event of a medical emergency by storing their vital medical information on a "smart card" accessible by participating emergency personnel.

The Care Entrée Instacare Card features smart card technology that stores vital medical information plus emergency contact and primary insurance information. Participating emergency personnel can instantly retrieve the information on a handheld portable reader or call the toll-free number on the front of the card for operator assistance 24 hours a day, seven days a week.

The Instacare card stores the following member information:

- Name and Address
- Age
- Gender
- Blood Type
- Organ Donor Status
- Allergies
- Permanent Medications
- Medical Conditions
- Emergency Contact Information
- Primary Insurance Information
